

THE EFFLORESCENCE DESTROYER. REMOVES EFFLORESCENCE AND RUST MARKS FROM POROUS MATERIALS, INCLUDING STONE, CONCRETE, BRICK AND GROUT.

- Highly concentrated formulation. Contains 50 to 60% urea hydrochloride
- Powerful, but much lower fuming than hydrochloric acid
- Effectively removes mineral residues, including efflorescence, grout haze, rust marks, soap scum, limescale, mortar mess
- Acidic cleaner can also be used for removing fireplace soot
- Temporary contact does not immediately burn skin - you have some time to rinse off the acidic cleaner (however, rinse immediately after skin contact).
- Almost no corrosion of metals, except aluminium

How to Use:

1. Read Product Data Sheet and Material Safety Data Sheet before using.
2. Wear protective gloves/protective clothing/eye protection/face protection.
3. TEST PRODUCT ON A SMALL AREA TO CHECK ACID SENSITIVITY BEFORE FULL APPLICATION.
4. If satisfied with test results, remove all loose dust and dirt from the surface.
5. Apply when surface temperature is 5 to 35 °C (40 – 95 °F).
6. Pre-wet very porous surfaces with water to prevent cleaner penetrating too deeply.
7. TED is highly concentrated and must be diluted with clean water. Recommended dilutions:
 - a. Efflorescence, rust marks: 1 part TED to 10 parts water.
 - b. Grout haze, limescale, soap scum: 1 part TED to 20 parts water
8. Pour, brush or spray mixed solution generously onto surface and leave for 3 minutes.
9. Do not allow solution to dry on surface. Clean large areas in sections.
10. Rub with a white nylon scrub pad, or similar, to clean the surface.
11. TED is highly acidic and must be neutralized before rinsing: Use Oxitec-M or dissolve 1 cup of bicarbonate of soda in a bucket of water. Pour or spray over the entire surface and leave for minimum 3 minutes.
12. Rinse surface thoroughly several times with clean water.
13. NOTE: TED is highly acidic and will etch acid sensitive materials such as marble, limestone, travertine and onyx. Concrete should be wet before applying TED and neutralized immediately afterwards to minimize damage.

Warnings

- Causes skin irritation.
 - Causes serious eye irritation.
- May cause respiratory irritation.

Precautions

- Do not handle until all safety precautions have been read and understood.
- Wear protective gloves/protective clothing/eye protection/face protection.
- Avoid breathing dust/fume/gas/mist/vapours/spray.
- Wash thoroughly after handling.
- Use only outdoors or in a well-ventilated area.
- **If on skin:** Wash with plenty of soap and water.
- **If inhaled:** Remove to fresh air and keep at rest in a position comfortable for breathing.
- **If in eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- Call a POISON CENTER or doctor/physician if you feel unwell.
- Specific treatment is advised - see first aid instructions.
- If skin or eye irritation occurs, get medical advice/attention.
- Take off contaminated clothing and wash before re-use.

First Aid

Eye	If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre, a doctor, or for at least 15 minutes.
Inhalation	If inhaled, remove from contaminated area. Administer artificial respiration if not breathing.
Skin contact	If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. Continue flushing with water until advised to stop by a Poisons Information Centre or a doctor.
Ingestion	For advice, contact a Poisons Information Centre or a doctor (at once).

For advice, contact a Poisons Information Centre on 13 11 26 (Australia Wide) or a doctor (at once).
If swallowed, do not induce vomiting.

Poisons Information Centres:

Australia - 13 11 26 (Australia Wide)

USA - American Association of Poison Control Centres 1-800-222-1222

Canadian Poison Centres – Ontario (24/7): Telephone: 416-813-5900; Toll free: 1-800-268-9017

UK - England and Wales: NHS 111 - dial 111; **Scotland:** NHS 24 - dial 111; **Republic of Ireland:** 01 809 2166

Technical Data

- Specific Gravity: 1.21
- Colour: Clear, colourless to light straw-yellow liquid
- Weight: 1 L (1.06 qt) = 1.3 kg (2.86 lb.); 5 L (1.3 gal) = 6.3 kg (13.9 lb), 20 L (5.3 gal) = 25 kg (55 lb),

Transport

Not classified as a dangerous good by the criteria of the ADG Code, IMDG or IATA

Pack Sizes

1 L (1.06 qt); 5L (1.3 gal); 20 L (5.3 gal)

Shelf Life and Storage Guidelines

Best within 2 years of manufacture date. Store away from direct sunlight.

Keep container tightly sealed, in a well-ventilated place, at 2 - 30 °C/36 - 85 °F.

Manufactured in Australia by Chemforced Pty Ltd
